

REMARKS

Please consider the following remarks. We have amended the Specification to provide information relating to applications referred to therein. The Examiner has objected to the drawings because, as the Examiner states, the "drawings must show every feature of the invention specified in the claims". In particular, the Examiner states that "the fluid reservoir arranged below the nozzle opening must be shown or the feature(s) cancelled from the claim(s)". Applicants submit that only claim 23 includes this feature, and as described below, claim 23 is being cancelled herewith.

Disposition of Claims

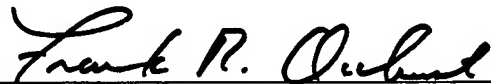

Prior to this reply, the application included claims 1-37. Examiner has rejected claims 19-32, and 36. Applicant acknowledges the Examiner's indication of allowable subject matter in claims 1-18, 33-35, and 37. Accordingly, claims 19-32 and 36 are cancelled herewith. Applicant is considering pursuing these canceled claims in a continuation application.

Conclusion

It is not believed that any fees are due, but please apply any charges to deposit account 06-1050, referencing Attorney Docket Number 09991-147001.

Respectfully submitted,
